

LOCTITE®

Maintain, Repair, Rebuild, Protect

Solutions for Industrial Asset Maintenance and Reliability

Henkel

Henkel. Solutions for All Your Maintenance Challenges.

Maintain, Repair, Rebuild and Protect Industrial Equipment.

Maximizing your production, minimizing unplanned downtime, and preventing equipment failures are critical in every industry. Unreliable equipment can lead to lost time, expensive repairs, and safety issues that can seriously affect your bottom line.

At Henkel, we understand the challenges you face because we have long-term experience maintaining industrial equipment. Henkel and our **LOCTITE® brand** are the trusted partners of industries around the world to help **reduce costs, increase reliability and improve efficiency.**

Your Challenges. Our Solutions. Your Benefits.

Henkel provides more than quality products – we provide solutions to many of the biggest challenges facing our customers. Let us put our expertise to work for you.

BENEFITS

Reduced chronic failures.
Increased up-time.

Increased productivity.
Improved efficiency.

Reduced hazards from failures.
Identified safety improvements.

Extended asset life.
Reduced materials cost.

Why Henkel?

Henkel, the **leading solution provider for adhesives, sealants and functional coatings worldwide**, provides more than adhesives. We help solve your challenges with technical expertise, innovative new products, and the best engineering services in the industry. **We're your partner every step of the way.**

CUSTOMER PARTNERSHIP

Our experienced MRO engineers provide documented solutions and application support.

TECHNOLOGY LEADERSHIP

Products recognized in the maintenance industry around the world for their exceptional performance.

INDUSTRY KNOW-HOW

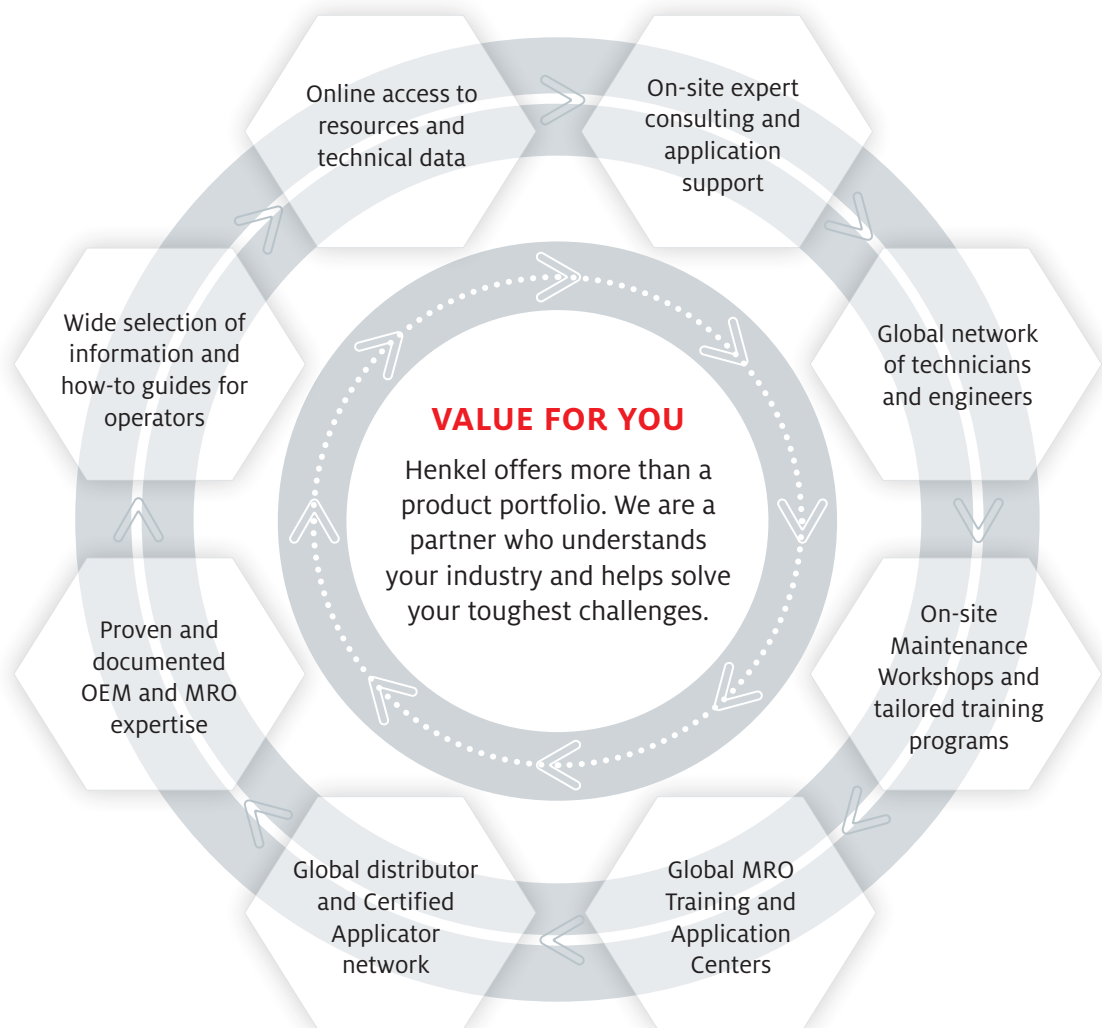

Our professional MRO industry and training programs help identify opportunities to improve efficiency and costs.

LOCTITE® – The Number-One Choice for Reliability and Quality

With more than 50 years of experience working with industrial equipment, we'll help you keep your plants and equipment in top operating condition.

Maintain. Repair. Rebuild. Protect.

On-Site Consulting

Plant surveys analyze your current maintenance practices and culture, and recommend improvements. Product analysis can help reduce the complexity of your maintenance product inventory.

Maintenance Workshops

On-site customized training will help your staff improve equipment reliability, reduce routine and redundant maintenance tasks, save energy costs, and increase productivity.

Protective Coating Solutions

Our experts will show you how to identify and apply the proper surface-protection coatings to keep your assets up and running. We can also recommend Henkel Certified Applicators who specialize in these repairs.

Industry Maintenance Guides

Our in-depth programs offer solutions for rebuilding and maintaining key industrial devices such as pumps, shafts, gearboxes, and centrifuges.

Protection Throughout Your Facility

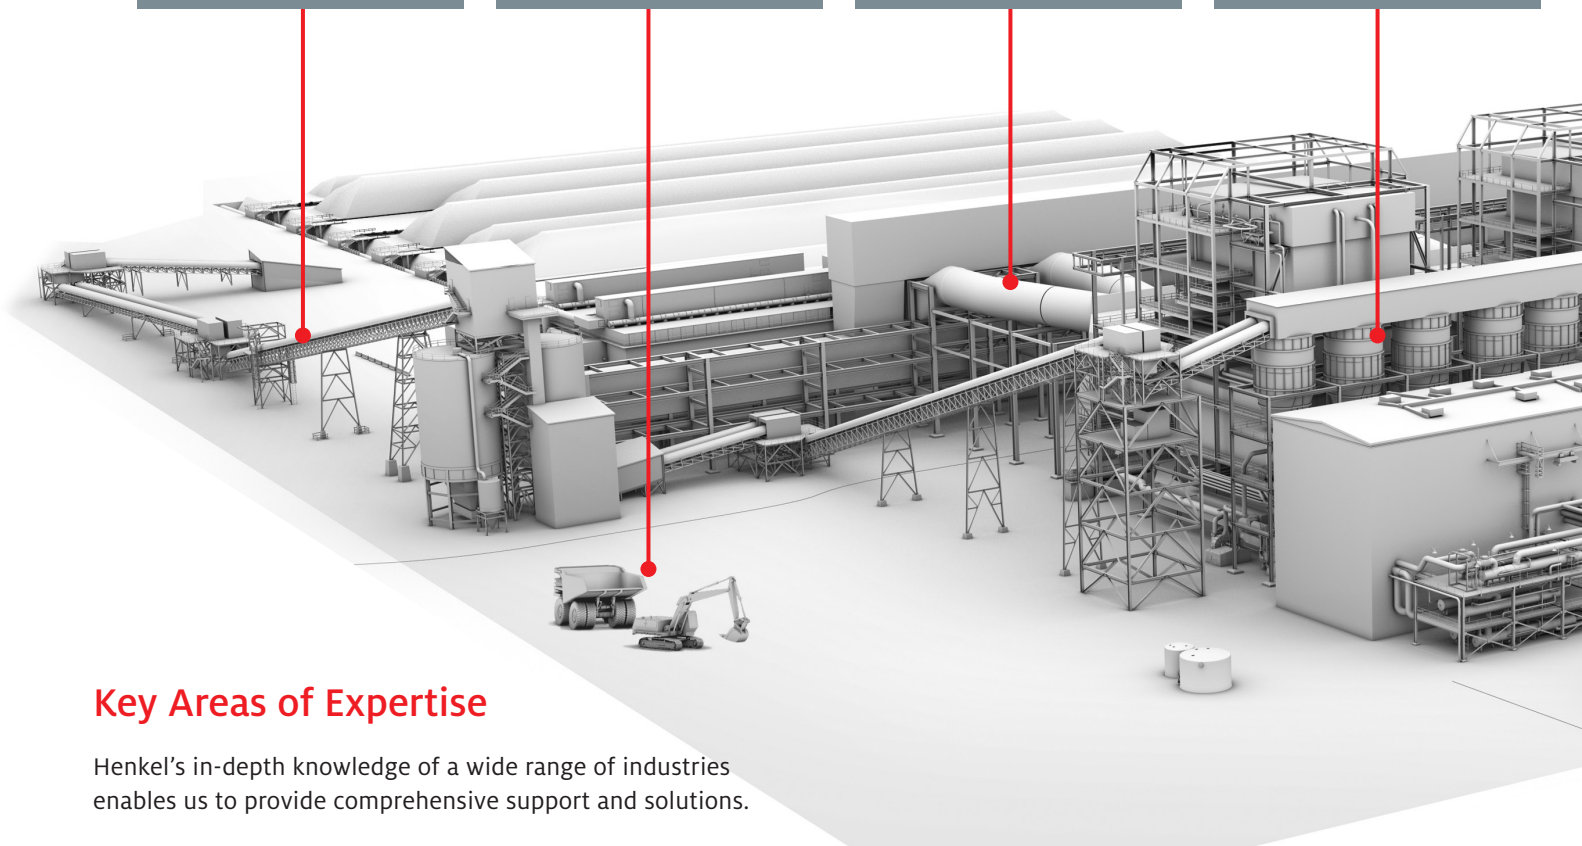

For every industry, LOCTITE® solutions will help repair, rebuild and protect your valuable assets.

RUBBER DAMAGE: LOCTITE®
RAPID RUBBER REPAIR

POWER GENERATION

MINING

OIL AND GAS

STEEL

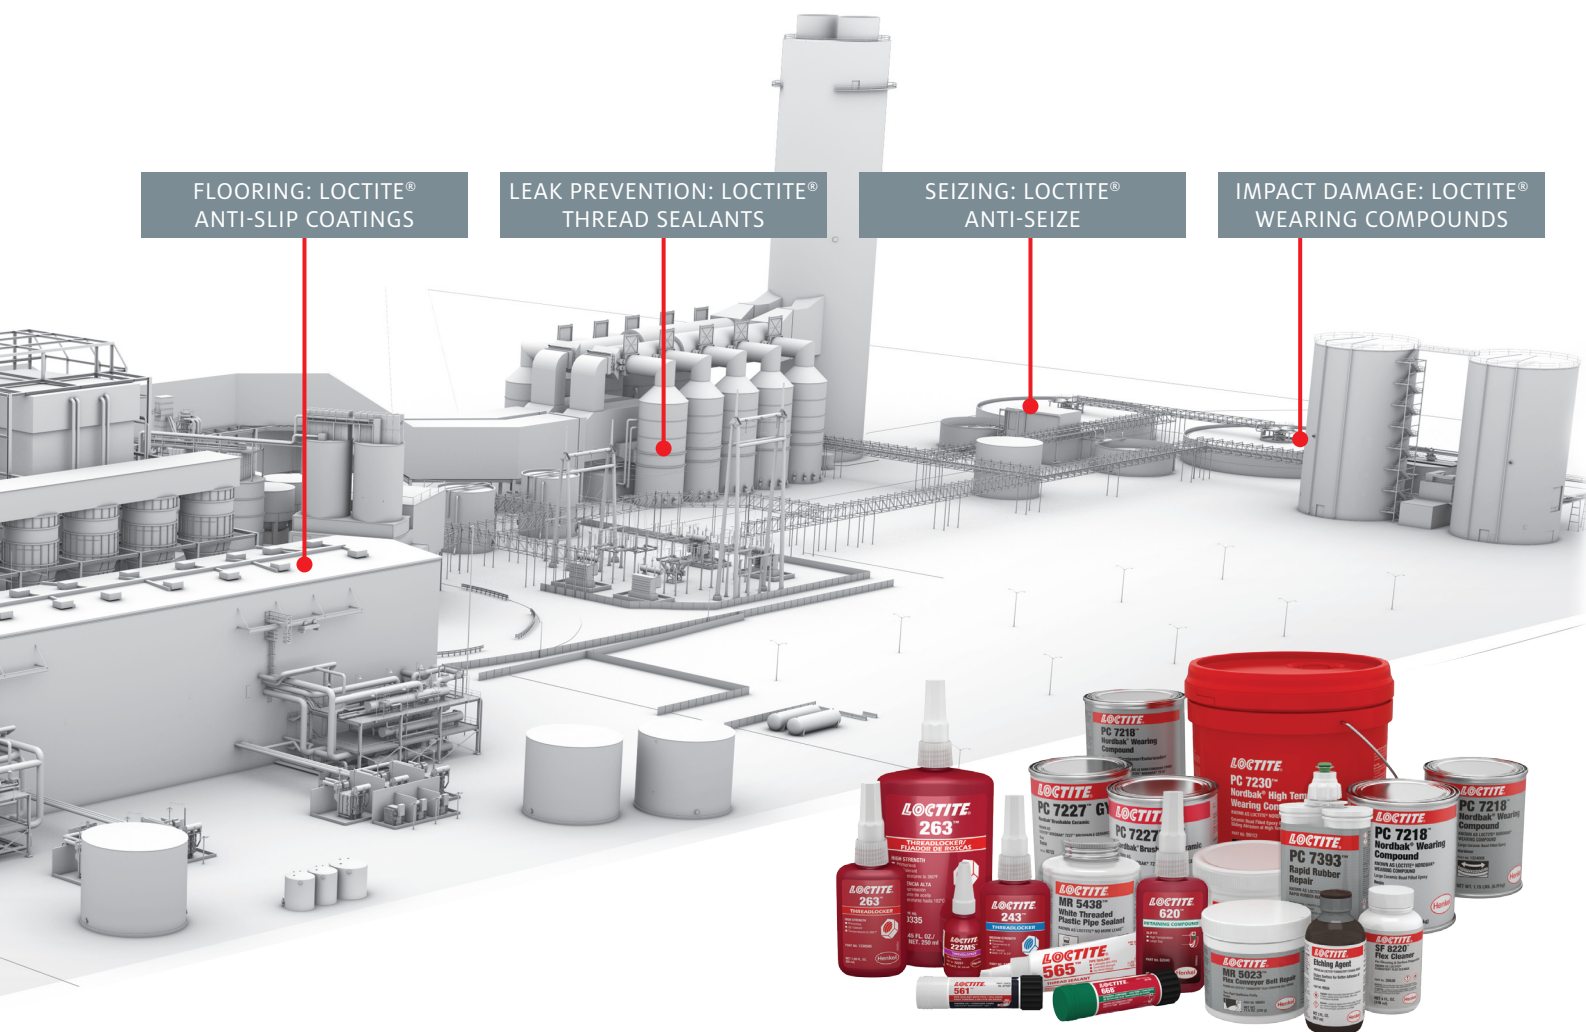

FLOORING: LOCTITE®
ANTI-SLIP COATINGS

LEAK PREVENTION: LOCTITE®
THREAD SEALANTS

SEIZING: LOCTITE®
ANTI-SEIZE

IMPACT DAMAGE: LOCTITE®
WEARING COMPOUNDS

RAILWAY

WATER UTILITIES

PULP AND PAPER

FOOD PROCESSING

> Your Solution Partnership Process

Our industry experts can help you **IMPROVE RELIABILITY, SAFETY** and **EFFICIENCY**, and **REDUCE COSTS** through a number of services and programs.

1

Henkel conducts a plant evaluation with your facility or plant management team

2

On-site consulting identifies asset protection, reliability and cost savings solutions

3

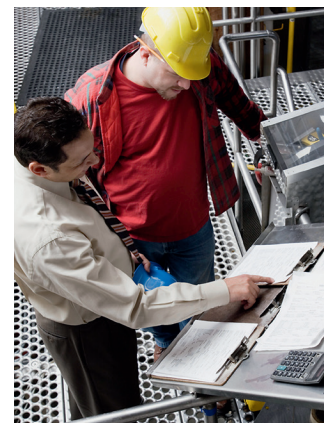

Our team plans customized training to implement identified solutions

4

Henkel experts conduct training in departments as needed

5

Henkel continues in-plant consulting to further identify and implement cost-saving solutions

BENEFIT NOW

A Henkel representative will meet with your plant managers, describe our solutions process, and schedule a plant survey.

Let us help make your plant more reliable, more efficient and safer with reduced costs!
