

1. Insert Plunger, track side down, into the slots on the front face of the dispenser. Push up on the metal lever on the back and slide the plunger full length into the dispenser

2. Lift up the cartridge holding tab on the top of the dispenser to expose the slots that hold the dual cartridge

3. Slide the cartridge into the dual slots. The dual plunger rods will line up properly with each cavity

4. Lower the cartridge holding tab back down to secure the cartridge in place. Dispense product by squeezing the trigger

**Loctite® 75ml Dual
Cartridge Dispenser**
