Equipment Instruction Sheet

Pistol Grip Trigger

IDH #: 1176444

CONNECT WITH DISPENSER:

Connect the XS1 9-pin male connector to the XS1 socket or the footswitch connection on the dispenser.

(Optional) BUNDLING THE ADHESI VE AND PNEUMATIC FEEDLINE

Use the small black zip ties to bundle the trigger cable, adhesive feedline, and pneumatic hoses, to form a single convenient bundle.

(Optional) HANG UP THE PISTOL GRIP TRIGGER

The large black zip tie is a hanger that can be used for hanging the Pistol Grip Trigger from a hook or tool balancer (customer supplied).

Pass the large black zip tie through one slot in top plate, the tunnel (located below the top plate), and then the second slot. Leave space in the loop for the intended hanging hook, and zip closed (see photo).

OPERATION

Semi-Automatic Mode (On Dispense Unit)
To activate dispense unit, press on the trigger. Material should flow according to the pre-set time on the dispense unit.

Manual Mode (On Dispense Unit)
To activate dispense unit, press on the trigger. Material should flow as long as the trigger is depressed.
