Product Description Sheet HD10 Pneumatic 300 ml Cartridge Dispenser

Item # 1714379

North American Engineering Center

PRODUCT DESCRIPTION

The Loctite® HD10 Pneumatic 300 ml Cartridge Dispenser is a manually controlled applicator that dispenses product from 300 ml cartridges or 250 ml tubes (when tube adapter is used). The cartridge or tube is pneumatically pressurized and product is dispensed from the nozzle while the trigger is depressed.

PRODUCT FEATURES

- Simple, quick operation
- Built-in air pressure regulator allows for easy adjustment to accommodate various product viscosities.
- Hose fitting with quick disconnect fitting included.
- Instant dump valve for pressure relief.
- Drawn aluminum barrel.
- Quick release end cap.

Items Supplied

- Pneumatic Dispenser; Fitting With Gasket; Instruction Manual
