

EQ MX Mobile Mixer**Item No. 2717051 / 2717052 (110V / 230V)**

Product Description

The Loctite® EQ MX Mobile Mixer is an electric motor driven pail mixing system compatible with various MRO protective coatings, grouts, and other products. The Loctite® EQ MX is specifically designed to mix 5-gallon, 3-gallon, and 2-gallon kits of product in a simple and efficient process. The EQ MX utilizes a rotating basket and a stationary mixing paddle which provides axial and radial action to the product. The mixing paddle scrapes the sides and bottom of the pail, causing the product to fold in on itself to provide a complete mix. With easy to swap out baskets and paddles as well as adjustable mix angles, the EQ MX will cater to dozens of mixing applications commonly encountered in the field.
