

Polybit

Polycryl FR - The ultimate fire rated coating solution

- Fire rated coating
- Quality assured system
- Excellent concrete moisture protection

Henkel

Quality for Professionals

Polycryl FR

Polycryl FR is a single component, acrylic Class A fire-rated protective coating especially designed for concrete moisture protection on facades applications. Polycryl FR complies with Civil Defense requirements (for facade application) and it is the safest solution for such application.

Key Benefits

- Most excellent fire rated solution
- Can be applied by brush or spray
- White color = quality assured system
- Excellent resistance to vapor and moisture
- Excellent UV, weatherability & color retention properties

Advantages

Surface Burning Characteristics of Building Materials test (ASTM E84) results on the lowest level, proving that Polycryl FR is the safest solution when it comes to concrete protection on facades, as per Civil Defense regulations.

Surface Burning Characteristics of Building Materials Test (ASTM E84)	Polycryl FR	Class A Reference
Flame Spread Index (FSI)	0	0-25
Smoke Developed Index (SDI)	10	0-450
