Watertite Xtreme the ultimate waterproofing protection

- Resistant to high hydrostatic pressure
- Permanent bond to fresh concrete
- Fast, safe and environmentally friendly application

RESISTANCE TO
HYDROSTATIC PRESSURE

Quality for Professionals

Watertite Xtreme

Stick-to-concrete loose laid waterproofing membrane system

Watertite Xtreme is a single laid waterproofing membrane system using HDPE cross-lamination and stick-to-concrete technology. The highly flexible polymer modified bitumen is laminated with HDPE film and tough polypropylene fleece, ensuring superior mechanical properties and enabling the system to be fully bonded with freshly poured concrete, providing the ultimate waterproofing protection and becoming an integral part of the structure, regardless the structural movements. Moreover, Watertite Xtreme is ensuring fast and easy application, providing a unique advantage, cost and time wise, while is fully complied with the latest green building standards, ensuring zero emissions on site, as no torch on is needed for its application.

Main Advantages

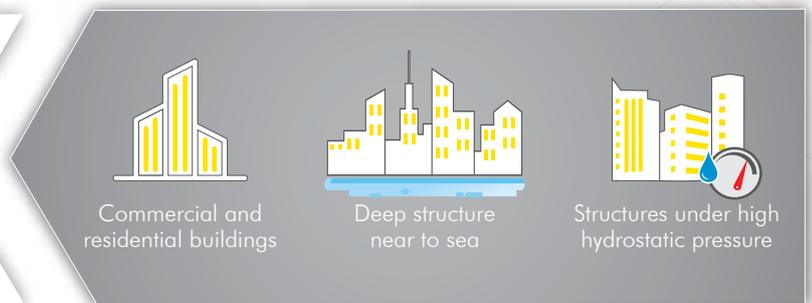

Independent of structural movements

Excellent mechanical strength

Fast, easy and safe application

Strong & permanent bond with concrete

Fields of Application

Why Watertite Xtreme?

	Watertite Xtreme System (Single layer)	Torch on Membrane System (Double layer)
Independent to structural movements	★★★★★	★☆☆☆☆
Cost Efficiency	★★★★☆	★★★☆☆
Productivity Cost - Time - Resources	★★★★☆	★★★☆☆
No need for additional protection	★★★★★	☆☆☆☆☆
No emissions - more environmentally friendly	★★★★★	☆☆☆☆☆
Ease of application	★★★★★	★★★☆☆
Work Safety	★★★★★	★★★☆☆
Lack of lateral water migration	★★★★★	☆☆☆☆☆
Moisture Insensitivity	★★★★★	★★★☆☆
