

BONDERITE

Gas Turbine Cleaner for Power Plants that Care for Turbine Efficiency

REASONS TO CLEAN

- Ingression of air borne particles inevitable.
- Fouling also happens due to oil leakage from the compressor rotor inlet bearing
- Fouling of air path surface leads to reduced efficiency and increased fuel consumption.

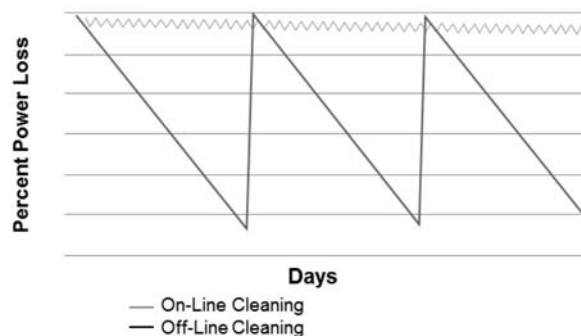

General Electric LM2500 Gas Turbine

BENEFITS:

- Enhances turbine efficiency
- Proven Technology
- NAVAIR Compressor Cleaning Testing
- 80 years experience with Turco brand

Compressor Cleaning Comparison On-line vs Off-line (daily vs monthly)

Product Name	Chemistry	Remark
Bonderite C-MC 5884	Solvent based compressor cleaners for removing impurities chlorides, sulfates, oxides,	Approved by : USA Ministry of Defense following spec MIL-PRF-85704C (15/07/1998), Rolls Royce Allison, General Electric, Dresser-Rand Models KG2 & KG5, Pratt & Whitney,
Bonderite C-MC 6783 (-3, -10, -50)	Aqueous compressor cleaners for removing oil, salts and other solid deposits from in-service engines	Approvals : Mil-C-85704B Type II and III Available as ready-to-use cleaner as well as cost-efficient concentrate
