

SENSOR DEMONSTRATOR

Our Loctite Electrode Sensor Demonstrator Kit includes twelve functional dry adhesive electrode demonstrators for research and technical material validation. These electrodes combine a unique set of printed electronic materials and an innovative dry electrode adhesive within a flexible patch design. This unique material stack ensures long-term monitoring at good signal quality while enabling increased comfort of wear. More information to find here [LOCTITE SENSOR DEMONSTRATOR \(print-your-electronics-with-loctite.com\)](https://print-your-electronics-with-loctite.com)
