BONDERITE

HENKEL READY-TO-USE SURFACE TREATMENTS FOR THE AEROSPACE INDUSTRY

BONDERITE® ready-to-use conversion coatings and surface treatments range from pen-sized applicators for touch-ups to bulk packaging for full-scale processing. Choose BONDERITE brand products, and be ready for any aerospace manufacturing or maintenance need.

BENEFITS INCLUDE:

- Available in multiple packaging configurations for optimal surface application
- Convenient ready-to-use form
- Improved process efficiency
- Reduced waste and operator error

Description	Environmental Advantages
a tri-chrome dry-in-place conversion coating designed for use on aluminum and its alloys. The and safer method of repairing bare areas of aluminum surfaces. Its proper use reduces worker y, such as rinse water generated from a conversion coating process.	
designed to save labor, material, and time when applying a dry-in-place hex-chrome conversion duces worker contact to chromated solutions and decreases wastewater, such as rinse water	
on of the BONDERITE® M-CR 1132 AERO Touch-N-Prep® AERO pen. This smaller format is to reach areas. Only available in North America.	
free conversion coating specifically formulated for treating aluminum and its alloys. This ocess provides an excellent base for organic finishes.	
as aluminum and magnesium.	
d product which produces a chromate conversion coating on aluminum and its alloys. The ninum and bonds paint well.	
ement specifi cally formulated for increasing adhesion to aluminum and titanium alloys. This sions. The coating produced provides an excellent base for organic finishes and surface I after application.	
is formulated for treating magnesium alloys to produce a chromate conversion coating method conforms to requirements in NAVAIR 01-1A-509 and is meant primarily for touch-up also is an adhesion promoter.	
nt chromium conversion coating formulated for treating aluminum and its alloys, metals coated es. This product is formulated as a ready-to-use material for manual spray, brush and immersion erves as an excellent base for organic finishes and adhesives.	
rsion coating BONDERITE M-CR 1201 AERO and the deoxidizer BONDERITE C-IC 605 AERO. nis kit contains sufficient chemicals for cleaning and coating approximately 100 ft ² of aluminum
