

**BONDERITE®**

## **BONDERITE® C-NE 3300**

The low-temperature, water-based neutral cleaner with patented demulsifying technology

Cleaning after grinding, cutting, drilling, milling, stamping or pressing

# BONDERITE®

## Applications

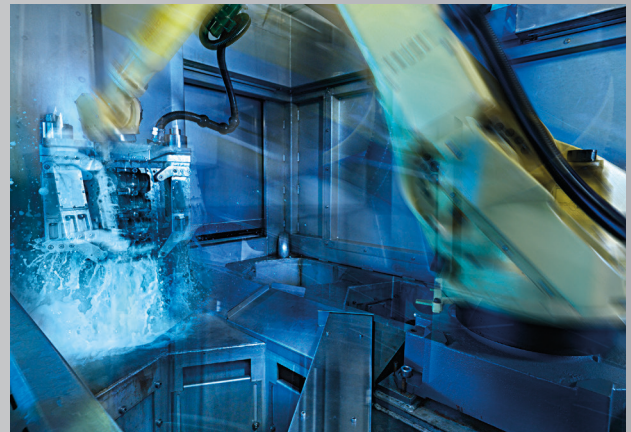

- > Simultaneous cleaning and passivation of steel, cast iron, and non-ferrous metals as well as aluminium alloys
- > Removes oils and emulsions, paint residues, chips and pigments
- > Sprayable and foam free
- > Deburring aluminum at high pressure

## Benefits

- > Up to eight times longer bath lifetimes
- > No additives required for oil separation (no costs)
- > 50% less waste water and associated cost
- > Low-temperature application yields energy cost savings

## Properties

- > Patented demulsifying technology
- > Broad temperature range, T = 30 - 70 °C
- > Non-foaming in almost all water hardnesses
- > Good corrosion protection and surface cleanliness for downstream processes, including assembling, bonding, sealing, coating or simply storing

## INCREASES BATH LIFETIMES BY UP TO 800% DUE TO PATENTED DEMULSIFYING TECHNOLOGY
