## **Manufacturing Excellence**

**From The World Leader in Adhesives, Sealants and Functional Coatings**

As the world Leader in Adhesives, Sealants and Functional Coatings we have all the technologies that you need to take your operations to a new level. We have created a Specialist Team to support our customers in identifying where Henkel Technologies can provide cost effective solutions to their manufacturing processes.

## We do this by a Manufacturing Excellence Survey that will provide you with a detailed analysis on where Henkel products could:

- > Reduce cost
- > Reduce waste and process steps
- > Improve quality, productivity and efficiency

The survey and subsequent reports, process analysis and feedback sessions are offered as part of Henkel's Total Solutions Program which is designed to help manufacturing companies **identify innovative, cost effective solutions to their operational processes**. Henkel's team of specialist are available to support across the total manufacturing process, from initial consultancy, through to training and aftermarket support. So why not take advantage of engaging with the world leaders in their field today to see how Henkel can help you?

## By participating in the Manufacturing Excellence Survey you will receive:

- > A thorough audit of your manufacturing operations by Henkel Engineers and Technical Personnel
- > A written report detailing all identified saving opportunities
- > A formal cost analysis on each recommendation
- > Recommendations for implementation of process improvements
- > Support program to assist with process implementation

### Manufacturing Excellence from Henkel:

**Improve Overall Manufacturing Process**

**Reduce Costs**

**Enhance Product Performance**

**Increase Reliability**
