

LOCTITE® UK 2073-2173 2C PU

High Performance and elastic 2C PU adhesive for Exterior bonding

1 CUSTOMER CHALLENGES

- Long enough open time for large exterior plastic parts such as spoilers and tailgates
- Bonding and fast cohesion build-up
- Reduced time for joining and fixation of plastic parts
- Flexibility – option to use one adhesive for all plastic bonding applications
- Primerless adhesives
- Globally produced adhesive

2 HENKEL SOLUTIONS

- A new 2C PU adhesive with sufficient open time and fast cohesion build-up
- Provides excellent adhesion on various plastics without a primer (For LSE* plastics a surface pretreatment such as flame or corona is necessary)
- Ensures reliable adhesion and lap-shear strength values on various LSE substrates
- Can be applied with standard equipment such as a follower plate and static mixer

* LSE = Low Surface Energy
