

Impregnation Service Centers Worldwide

On site or close by

Impregnation products and services from Henkel help you to achieve your cost reduction goals by enabling your operations to run more efficiently. Boasting an ever-expanding global presence at major OEMs and Tier 1 suppliers, Henkel is the ideal partner for sealing solutions along the entire value chain.

Our impregnation service center module offers you a flexible, fast and high-quality impregnation service. On-site, with one important advantage – temporary installation of a small but customized impregnation service center directly on site. Or alternatively, you can benefit from a Henkel impregnation service center located close to your manufacturing facility.
