

TEROSON® MS700

SPECIALLY DESIGNED FOR THE RV MARKET

THE CHALLENGE

Product that adheres and seals on multiple surfaces must cope with multiple challenges:

- Needs to be applicable inside and outside of the vehicles
- Cope with all weathers
- Stable through the life of the vehicle
- Good appearance
- Flexible to cope with the movement of the vehicles
- Needs to be solvent, isocyanate and PBC free

THE TEROSON® SOLUTION

TEROSON® MS700 specifically developed for the Recreational vehicle market addresses these challenges and offers:

- High UV resistance
- Indoor or outdoor use
- Good adhesion to a wide variety of substrates used in the RV market
- H&S label free
- Weather and ageing resistant
- 300% elongation
- Over paintable

KEY FEATURES:

Very versatile

High strength

Good elasticity

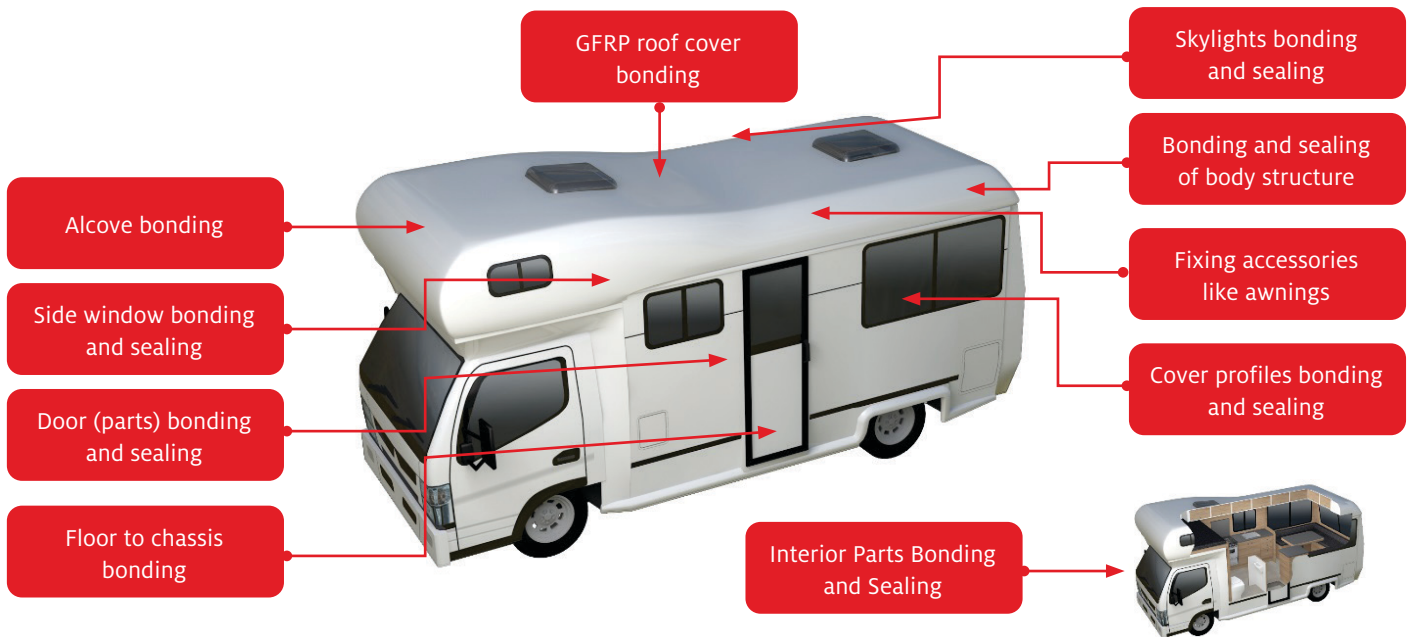

Excellence weathering and UV resistance

MARKETS:

- Recreational Vehicles
- Marine
- Heavy Equipment

TEROSON® MS700 Typical Applications

TEROSON® MS700 Key Material Properties

Technology	Silane-modified polymer
Product Type	Elastic adhesive
Cure	Moisture
Color	White
Viscosity	Thixotropic paste

Skin formation time @ 23°C/ 50% RH, min	20 to 30
Tensile strength (acc. to Din EN 527), MPa	2
Elongation at break (acc. to Din EN 527), %	250
In service temperature, °C	-30°C to +80°C

TEROSON® MS700 ORDERING Information:

SIZE:	570 ml sausage packaging
IDH:	2767713
