

TEROSON®

TEROSON® MS 9320 LV WH NA SEALANT ENHANCED PERFORMANCE AND SUSTAINABILITY

TEROSON® MS 9320 LV WH NA Sealant is a sprayable white sealant with Class-A finish smoothness to reproduce flat- and wide-stream beads. It doesn't require any heat and can be used in automated high speed production lines. TEROSON® MS 9320 LV WH NA is also isocyanate-free, solvent free and tin free.

Key Benefits

- › Provides **Class A finish surface smoothness**
- › **Sprayable, brushable** application and paintable
- › **Curing at room temperature**
- › **Isocyanate-free, solvent free** and **tin free**
- › Very **good adhesion** to a wide range of substrates without primer
- › Excellent **UV resistance** and weathering performance
- › Very good **sag resistance**
- › **Longer open time** (Approx. 26 minutes dependent upon temperature and humidity levels)

Application

- › Exterior and interior seams in the assembly of specialty trucks, vehicles; RVs, buses
- › End of the line repairs
- › Vehicle repair sealing of seams originally applied in engine compartment, luggage boot, passenger cabin, wheel housing, underbody

Henkel Adhesive Technologies

Product Characteristics

Technology	Silane-modified polymer
Product Type	Adhesive
Components	One-component
Cure	Humidity
Application	Assembly + Repair
Appearance	White
Consistency	Pasty, Thixotropic

Item # / IDH	Package / Container
2976286	300ml aluminum cartridge
2997540	20kg pail
2974731	270kg drum

Recommended Application Equipment & Nozzles

For Smooth Beads:

 +
 
 or
 
 +
 

TEROSON® PowerLine II Pistol IDH no. 960304
 Flatstream Nozzle IDH no. 1305486
 Widestream II Nozzle IDH no. 1470999
 TEROSON® Large Warming Box IDH no. 2456728

For Sprayable Applications

 +
 
 +
 

TEROSON® Multi Press Pistol IDH no. 142241
 Sprayable Nozzle IDH no. 547882*
 TEROSON® Large Warming Box IDH no. 2456728
